PUBLIC COMMENT:

Brittany Blackburn a resident of Rock Hill read a statement regarding parking, speeding traffic, loitering and littering issues occurring at the end of Katrina Falls Road because of the use of the unique area State Trailhead property. She also expressed displeasure regarding the issue involving current signage that was recently placed Friday and then removed by the Town Highway Department yesterday. There was question regarding who ordered that the signs be placed and why they were removed.

Supervisor Rieber explained the current situation regarding the signage and requirements for no-parking according to law. He also suggested some options that the Town is willing to take to try and alleviate the issues. One option is a sign at the site and the entrance to Wolf Lake Road redirecting all overflow traffic to Wolf Lake access. The other option was to suggest that the Town to install additional parking area along the State property with NYS DEC consent.

Richard Blackburn a resident of Rock Hill suggested the additional parking. He felt that 18-20 parking spaces would be adequate. He also reiterated some of his wife Brittany's complaints and concerns.

There were many other residents present regarding this matter and some other brief comments made regarding the current parking issues.

A Swinging Bridge resident commented on issues involving an increase of Airbnb's located along Lakeshore Drive and Swinging Bridge Estates Drive. She explained the current traffic, noise and garbage issues occurring in the area. She questioned if there are regulations, HOA requirements or Deed covenants that regulate this use.

Director Carnell replied that there are no Town regulations if the property is being used for residential purposes.

Attorney Mednick commented regarding Deed restrictions vs. short-term rental regulations.

Supervisor Rieber also responded and recommended that the resident contact the Swinging Bridge HOA.

Advance Auto Parts Limited Warranty Policy

General Limited Warranty Period and Applicability

The warranty period is 90 days from your date of purchase or any longer warranty period that may be printed on your original sales receipt. During the warranty period, we will replace or refund, at our option, any new part that fails due to a defect in materials or workmanship under normal use and service after proper installation. Simply return the part along with your original sales receipt to any Advance Auto Parts store. You must be the original purchaser of the part and still own the vehicle on which it was installed. This warranty is not transferrable. Replacement parts are warranted for 90 days from the date of exchange or the remainder of the warranty period on the original part, whichever is longer.

Refunds will only be considered if you bring the defective part to an Advance Auto Parts store along with your original sales receipt within 45 days from the original date of purchase. Refunds will be issued in accordance with our Refund Policy.

Battery Limited Warranty

The battery Free Replacement Period begins the day of purchase and expires at the end of the Free Replacement Period that is printed on your original sales receipt. This period does not renew when the battery is replaced during the Free Replacement Period. If the battery is found defective after the Free Replacement Period but prior to the end of the warranty period, a prorated credit will be issued that can be applied toward the purchase of a new battery. The prorated credit will be determined by dividing the original purchase price by the number of months of the warranty period, then multiplying the result by the months remaining in the warranty period. Partial months are rounded to the nearest whole month. Installation or use of an automotive battery in any other type of vehicle or equipment voids your warranty.

What is Not Covered

- Failure due to: accident or collision; misuse, abuse or modification; chemical fallout; salt, hail, or other environmental conditions including natural disasters; marine use; improper installation; installation of an incorrect part; and damages caused by other faulty parts.
- Parts under manufacturer's recall for a related problem.
- Parts installed on vehicles used off-road or for racing purposes.
- Parts installed on a commercial-use vehicle after 90 days (see below).
- Normal wear and tear.
- Used or salvage parts.

Commercial Use Vehicles

Parts installed on commercial-use vehicles are warranted for 90 days from the date of purchase only, regardless of any longer warranty period that may be printed on your sales receipt.

Part-Specific Requirements

Certain parts must meet specific installation requirements. Failure to provide proof that these requirements have been met will void your warranty.

- **A/C Compressors.** Flushing is required. Must also install a new receiver dryer/accumulator, orifice tube or expansion valve (as applicable).
- **Clutch/Clutch Kits.** The clutch/clutch kit must be installed according to the manufacturer's instructions, including installation of a new pilot bearing and resurfacing of the flywheel. Clutches contaminated by oil and grease are not eligible for warranty replacement/refund.
- **Crankshafts.** The installer must validate that the crankshaft OE number matches and there is no visible damage to the unit prior to installation. Warranty is limited to replacement of the crankshaft and bearings prior to installation. Warranted crankshafts that are returned must include the bearings supplied with the unit.
- **Fuel Pumps.** Replacement of pump strainer (for in-tank electric pumps) and inline fuel filter at time of repair is required. Must also drain and clean fuel tanks.

Additional Important Information

THIS LIMITED WARRANTY DOES NOT COVER LABOR COSTS OR INCIDENTAL, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES SUCH AS, BUT NOT LIMITED TO, PHYSICAL INJURIES OR PROPERTY DAMAGE, LOSS OF TIME, LOSS OF USE OF THE VEHICLE, INCONVENIENCE, RENTAL VEHICLE CHARGES, TOWING CHARGES OR ACCOMMODATIONS RESULTING FROM A DEFECT IN OR FAILURE OF THE PART.

This limited warranty represents the exclusive remedy for any product defect or failure and the total liability of Advance Auto Parts and its subsidiaries and affiliates ("Advance") for any part it warrants. Town of Thompson
 Highway Department
 Richard Benjamin Jr. Highway Superintendent

Bid Item: Vehicle and equipment
 replacement parts

SPECIFICATIONS

SCOPE: The purpose of this proposal is to make available to the Town of Thompson approved sources for the procurement of necessary new & rebuilt vehicle & equipment replacement parts to repair equipment.

Firms will be selected on the basis of discounts offered on new/rebuilt/reconditioned parts and proximity to the department. **Note:** OEM (Original Equipment Manufacturer) parts must be bid as noted on proposal pages, substitutes will not be accepted. The Town reserves the right to investigate the bidder's establishment before making an award.

It is understood by all bidders that there will be no minimum amount required or be set by any bidder for individual orders.

While the manufacturer's list will be the basis for the procurement under any contracts entered into as a result of this proposal, it is understood and agreed that the Highway Superintendent will determine and be the sole judge of which parts the agency will be authorized to purchase.

It is recognized and accepted that emergencies will occur. It is expected that dealers will be in a position to render emergency service if required. The Town of Thompson reserves the right to purchase emergency items elsewhere, if the vendor does not stock the needed item.

CONTRACT PERIOD: One (1) year from the date that the bid is adopted. By mutual agreement of both parties, this contract may be extended for an additional One (1) year period under the same terms and conditions.

The purpose of this proposal is for the establishment of annual contract(s) and to have on record, in the Highway Department, the discounts on parts used for the repair of vehicles & equipment. Parts will be picked up and/or delivered as required under all agreements awarded as a result of this bid. All deliveries will be made to the Town of Thompson Highway Department 33 Jefferson St. Monticello NY 12701.

DELIVERY: All items ordered under this contract shall be delivered within two (2) working days from the date of the order. If the vendor cannot deliver any item within the two (2) working days, the Town of Thompson reserves the right to order the item elsewhere. It is recognized that certain special order items may require additional delivery time. The vendor is encouraged to discuss any delayed or unusual delivery times with the Town of Thompson in order to afford a good working relationship and prevent misunderstandings.

H.O. Penn does not offer delivery service. All parts can be shipped using UPS or XPO at buyers expense.

Town of Thompson
Highway Department
Richard Benjamin Jr. Highway Superintendent

Bid Item: Vehicle and equipment

SPECIFICATIONS CONTINUED

The dealer's signature on this proposal attests to the fact that he is the manufacturer's representative and can secure and make delivery as stipulated of the parts bid upon.

Awards will be made to those firms offering discounts, **from Manufacturer's List Price ONLY**, which will result in the lowest net prices to the Town. The Town of Thompson reserves the right to accept or reject any or all bids or to award in a manner which in his estimation will be to the best interest of the Town.

PRICE: Discounts offered (if any) must remain firm for the entire period of the contract. It is further understood that the Town will receive the benefit of any price reduction that may occur.

SPECIAL CONDITIONS: Nearness of the Town Highway Department to the shop, past experience, inventory, etc. will be taken into consideration in making an award as well as, any information the Highway Superintendent sees fit to obtain and use regarding the ability of a dealer to supply the material and render the service the Town has the right to expect from a shop with a good reputation.

It is one of the goals of this method of procurement to make available to the Town of Thompson Highway Dept. sources conveniently located in the area in which the equipment is being operated. The Highway Superintendents reserves the right to eliminate any firms whose work has proven unacceptable from a quality standpoint in the past.

Vendor must be in the regular business of selling and stocking vehicle & equipment parts.

NOTE: Rebuilt items shall not be acceptable except in an emergency situation or as indicated on proposal pages.

REBUILT ITEMS: Bidders **must** indicate discount for each product line.
