The **TOWN OF THOMPSON** is currently updating its Comprehensive Plan — a document that will provide direction in making land use, development, and other long-range planning decisions in the Town.

The Town's **Comprehensive Plan Advisory Committee** has been working on identifying key issues, and developing a vision for the future, along with corresponding goals and objectives. At this meeting, the public will have an opportunity to provide constructive feedback on the vision and goals, and share ideas for specific projects or policy recommendations that could be included in the plan.

This slide presentation was given on June 29, 2023 to inform the public about the Town of Thompson's Comprehensive Planning process.

May 3, 2023

The Comprehensive Plan Advisory Committee (CPAC) has been meeting monthly since January and working on ways to engage the public in the planning process. One of the first tasks accomplished by CPAC was the development of a community survey with questions about key issues, development preferences, and the quality of municipal services. The survey, which

February 27, 2023

The Town of Thompson's Comprehensive Plan (also called a master plan) was last revised in 1999. A great deal has happened since then, and an update to the comprehensive plan is needed to help local officials develop policies and implement projects that will guide future growth in a positive and proactive way, while preserving
